Morphist.AI

WHAT WE DO

With Morphist, you can prompt all AI models. Your prompts and responses are stored locally, encrypted, easy to access, and yours forever.

Search, filter and access your entire AI conversation history in a single source of truth.

One subscription > many - no need for managing credits and payments scattered across multiple platforms.

Sync securely across devices, backup to cloud or decentralized services.

THE PROBLEM

- ✗ AI conversations are scattered across multiple platforms
- ✗ Users lose track of valuable insights and responses
- ✗ No way to search through past AI interactions
- ✗ Switching between different AI models is cumbersome
- ✗ No knowledgebase of personal multi-model AI history
- ✗ No guaranteed access to cloud-only content

THE SOLUTION

- ✓ Unified interface for all major AI models
(ChatGPT, Claude, Gemini, etc.)
- ✓ Fully encrypted local storage of all AI conversations
- ✓ Powerful search across your entire AI interaction history
- ✓ Seamless model switching within a single app
- ✓ One subscription, all models
