

AbsurdSenapiii FY2025 Annual Report

Executive Summary

This year marked a significant evolution for AbsurdSenapiii as it transitioned from an experimental lab environment into a fully operational entity, signaling a move into a stable and sustainable phase ¹. In parallel, the company secured a strategic partnership with What.Exchange and opened dialogue with key government agencies (Enterprise Singapore and IMDA), broadening its network and credibility in the industry ¹. AbsurdSenapiii also enhanced its public presence by establishing a credible LinkedIn profile to connect with the professional community ².

Crucially, we bolstered our credibility and transparency: our work gained validation through distribution on third-party platforms and we implemented rigorous public disclosure practices for our revenue sources and any potential conflicts of interest ³. This culminated in demonstrating a multi-asset balance sheet that underscores prudent financial management and institutional maturity ³. On the innovation front, we accelerated our publication cadence and launched new initiatives – notably, the Anime Central Bank (ACB), once a conceptual project, became operational as an internal treasury with publicly disclosed holdings ⁴. We also introduced select paid services in a soft launch, carefully ensuring this commercialization did not compromise our standing as an unbiased research authority ⁴. Throughout these developments, we reframed our narrative from a startup to a core system player in our domain and reinforced the founder's credibility in a balanced, humble manner. Together, these achievements signal a transition into a more mature, institutionally credible phase for the company ⁵.

Organizational Highlights

AbsurdSenapiii remained founder-operated and bootstrapped in FY2025, with founder-led leadership guiding its growth. The organization successfully moved from a pilot **lab phase** to **live operations**, reflecting a maturation of structures and processes that enables us to reliably serve stakeholders and scale our impact ⁶. In tandem with this operational launch, we reframed our company's narrative from a startup venture to a **system-level player** integrated into the broader ecosystem, emphasizing stability and a long-term vision ⁷. Alongside this growth, we deliberately anchored the founder's credibility in line with an institutional ethos, highlighting the founder's professional expertise through thought leadership channels **without ego-driven messaging** ⁸. By modestly reinforcing the founder's credentials, we strengthened stakeholder confidence in our leadership while maintaining a humble, mission-focused culture ⁹.

Strategic Partnerships and Government Engagement

What.Exchange Partnership: We secured a strategic partnership with What.Exchange to expand our platform's reach and capabilities. The collaboration creates mutual value – we gain additional expertise and resources, while What.Exchange leverages our unique research insights and technology ¹⁰. This

partnership not only opens new avenues for growth but also serves as external validation of our work, as an established industry player sees tangible benefit in aligning with us ¹¹ .

Engagement with Government Agencies: We opened official communication channels with key Singaporean government agencies, specifically Enterprise Singapore (EnterpriseSG) and the Infocomm Media Development Authority (IMDA). Engaging these agencies demonstrates our commitment to aligning with national standards and regulatory expectations as we scale ¹² . Preliminary discussions have explored areas of collaboration – from potential innovation grants to compliance guidance – positioning AbsurdSenapiii as a credible and proactive industry participant in the eyes of regulators ¹³ .

LinkedIn Presence: To strengthen our public profile, we activated a formal company page on LinkedIn. This credible presence allows us to share company updates, research insights, and professional achievements, and it has attracted a growing number of followers with increased visibility among industry peers ¹⁴ . Maintaining an active and credible LinkedIn presence is part of our broader strategy to enhance transparency, disseminate knowledge, and build a network of supporters and collaborators ¹⁵ .

Financial Overview

AbsurdSenapiii ended FY2025 in a healthy financial position, achieving a positive net income with no debt on the balance sheet. The company’s multi-asset balance sheet reflects prudent financial management and resilience ¹⁶ , signaling that we are prepared for varying market conditions and are responsibly stewarding our resources in a manner more typical of established institutions ¹⁷ . Key financial metrics for the year are summarized below.

FY2025 Income Statement

Income Statement (FY2025)	Amount (SGD)
Affiliate & Partnership Revenue	30,000 (approx.)
Trading Revenue (Nov–Dec 2025)	20,000 (approx.)
Total Revenue	~50,000
Operating Expenses	15,000 (approx.)
Net Income	~35,000 (positive)

Note: Trading operations began only in November 2025, so the trading revenue reflects two months of activity (not a full annual figure). As a founder-operated bootstrapped company, the founder drew no salary in FY2025, which helped keep operating expenses low. All figures are rounded estimates.

FY2025 Balance Sheet

Balance Sheet (FY2025)	Amount (SGD)
Operating Cash	30,000 (approx.)

Balance Sheet (FY2025)	Amount (SGD)
Investment in xAI (Strategic holding)	500,000 (approx.)
Investment in SpaceX (Strategic holding)	200,000 (approx.)
Investment in Neura Robotics	130,000 (approx.)
Collectibles Inventory (TCG assets)	400,000 (book value)
Total Assets	~1,260,000
Total Liabilities	0
Shareholders' Equity	~1,260,000

Note: Strategic investments are valued at approximate book value due to their illiquid nature. The company carries **no liabilities or leverage**, financing its growth entirely through internal resources and equity.

Research and Innovation

Increased Publication Cadence: AbsurdSenapiii significantly accelerated its research output in 2025. The team's capacity to produce high-quality analysis grew, allowing us to release reports and articles more frequently without compromising on rigor ¹⁸ ¹⁹. Thanks to improved internal processes and dedicated research staff, we maintained rigorous standards of evidence and review, positioning the company as a more influential voice and go-to source for reliable information in the industry ¹⁹.

Anime Central Bank (ACB) Operationalized: A major innovation milestone was the operational launch of our **Anime Central Bank (ACB)** project. Previously a conceptual initiative, ACB is now a functioning internal "central bank" or treasury system for our platform. We have publicly disclosed ACB's holdings to ensure full transparency ²⁰. By making ACB operational, we bolstered the stability of our ecosystem and provided a model of openness—stakeholders can see exactly what assets are held and how they are managed. The disclosed holdings span multiple asset types, aligning with our multi-asset strategy, and this initiative showcases an innovative approach to financial infrastructure in our niche ²¹.

Paid Services (Soft Launch): In addition to our free research offerings, we carefully **soft-launched** a set of paid services on a trial basis. These new offerings (for example, premium analytics tools, bespoke research reports, or advisory services for institutional clients) were introduced very selectively and with cautious positioning, so as not to undermine our reputation as an unbiased research authority ²². We made it clear that our core research publications remain independent and mission-driven rather than profit-driven. Early uptake of the paid services has been modest but encouraging, indicating a potential new revenue stream that complements our existing work without compromising credibility ²³. We continue to monitor and adjust these services to ensure they add value for users and align with our values and standards.

Transparency and Stewardship

Third-Party Validation: Our credibility received an external boost this year through third-party distribution of our research. Independent platforms and publishers began carrying or referencing our analyses, serving as validation of their quality and relevance ²⁴ ²⁵. This endorsement by trusted intermediaries amplified

our reach and strengthened our reputation as a reliable, objective research entity – achieved without any promotional effort on our part ²⁵ .

Public Disclosure Practices: We instituted rigorous public disclosure practices regarding our operations, finances, and any potential conflicts of interest. AbsurdSenapiii now regularly publishes clear information about its revenue streams, funding sources, and affiliations in straightforward language, so that stakeholders can understand exactly how we operate and where our incentives lie ²⁶ . This level of transparency is still uncommon in our segment, and we believe it sets us apart as an organization held to the highest ethical standards of accountability.

Integrity and Accountability: As part of our stewardship, we maintain a clear separation between revenue-generating activities and our research work. For example, trading and partnership revenues are transparently disclosed and kept distinct from the content of our research, ensuring that financial incentives do not compromise our objectivity. This **transparency-first** approach to operations and public accountability reflects our commitment to the highest ethical standards and helps preserve the integrity of our research.

Strategic Outlook

Looking ahead, AbsurdSenapiii will continue to pursue cautious, sustainable growth. Our focus in the coming year will be on deepening strategic partnerships, refining our service offerings, and maintaining our transparency-first approach to uphold the high standards of quality we have set ²⁷ . We are confident that maintaining this trajectory will benefit our stakeholders and users and further establish AbsurdSenapiii’s role as a trusted, system-level player in the industry ²⁸ .
